Summary — Skilled in web development, AI-driven solutions, and software engineering, with expertise in building responsive and dynamic applications. Adept at utilizing modern frameworks and technologies like React, Node.js, and Python to deliver user-focused, innovative solutions. Committed to continuous learning and excellence in delivering high-quality results

Education

CHARUSAT University, Anand   **2022 – 2026**
Bachelor of Technology in Information Technology

– CGPA: 9.24 (Third Year)

Skills

Languages	C, C++, javascript, java, Python, SQL	**Soft Skills**	Analytical, Collaborator, Competitive, programmer, Adaptable
Frameworks	MongoDB, Express, React, Nodejs		
Cloud	GCP, AWS	**Core Competencies**	Critical thinking, Restful API, Web Services

Experience

Agevole Innovation Pvt. Ltd., Surat   **May 2024 – July 2024**
Web Developer Intern

– Designed and implemented responsive user interfaces using HTML, CSS, and JavaScript.
– Utilized React to create dynamic web applications.
– Enhanced performance by optimizing images and implementing lazy loading.
– Ensured cross-browser compatibility and responsiveness.

Achievements

– I have Achieved **second runner-up** at the Meditab AI Hackathon by designing and implementing an impactful AI-driven solution. Leveraged advanced machine learning techniques to address real-world challenges. Highlighted technical proficiency and collaborative teamwork under competitive conditions.
– Google Cloud **career readiness Associate Cloud Engineer** track.

Projects

DSA Dazzle   **HTML, CSS, JS, jQuery**

– DSA Dazzle is a groundbreaking project aimed at transforming the study and teaching of Data Structures and Algorithms (DSA) and Design and analysis of an algorithms (DAA) into a dynamic and interactive experience with visualization.

DoseHack'24   **Python**

– This project simulates autonomous bot navigation in a grid-based warehouse using reinforcement learning and strategic pathfinding to avoid collisions and deadlocks.

– It demonstrates AI-driven solutions for efficient navigation and task optimization in a customizable environment.

Ridezy   **React, Nodejs, mongoDB, expressjs**

– Ridezy is a ride-hailing platform, offering seamless booking, real-time tracking. It simplifies transportation with user-friendly features for riders and drivers.

TextUtils   **React, CSS**

– TextUtils based on playing with the Text with better way and in that website, you can change case of your word, copy text, clear text, speak text and more.

bonNews   **React, CSS**

– bonNews based on Real time API and showcase the real time news with proper headline and sorted by your interest and bonNews provide you to category of news for your interest.

Certificates

– NPTEL - Database Management System

– NPTEL - Data Structure and Algorithms Using Java

– NPTEL - Operating System Fundamentals

– Google Cloud **career readiness Associate Cloud Engineer** track.
